Mon, Oct 19	8:40 AM	6:35 PM	1:00	8h 55m	Edited

1. Times are when this phone recorded arriving at and leaving the saved workplace. They show time at work, not hours worked.
2. Breaks were entered by the person. Records whose times the person changed are marked Edited; records the person entered by hand are marked Manual. The automatic records themselves were not changed.
3. The Break column includes the usual break from settings (1h on days over 6 hours at work). On days the person entered a break, that entry is used instead.
4. Overtime is time beyond 8h a day or 40h a week (weeks start on Sunday), without counting the same time twice.
5. Night is time from 10:00 PM to 5:00 AM.
6. Unless changed in settings, limits and rates are Japan's legal minimums (Labor Standards Act, Articles 32 and 37).

7. Days not listed have no records on this phone.

8. Pay estimates are not included.

9. This is the person's own record. How it is treated in any official procedure is up to the other party or authority.
